Draft plan for Ingleside to be released

We will be releasing the draft Strategy and draft technical studies for Ingleside, as well as information about proposed changes to the *State Environmental Planning Policy (Sydney Region Growth Centres) 2006* (the SEPP) that will make Ingleside a Priority Growth Area, before Christmas this year.

The exhibition period will begin **in early 2017** when we will be accepting your submissions on the draft Strategy and proposed changes to the SEPP.

Drop in sessions will be scheduled during the exhibition period so that you can visit us and ask questions about the plan. We will write to you again once the information is available and to provide more information about the drop in sessions.

If you have any questions please telephone us on 1300 305 695.

Kind regards

Ingleside Project Team
